

AMOL SHUKLA

Python Developer | AI & Data Science Trainer | Generative AI Specialist

■ India | ■ amolshukla.lall@gmail.com | ■ LeetCode: 250+ Problems Solved

PROFESSIONAL SUMMARY

Results-driven AI Trainer and Python Developer with **5+ years** of experience delivering industry-aligned technical training and building intelligent, real-world applications. Proven expertise in **Python, PHP, Data Structures & Algorithms, DBMS, Data Science, Big Data, and Generative AI**. Adept at mentoring students for high-impact placements, designing scalable learning systems, and integrating LLM-based solutions into academic and professional workflows. Passionate about bridging the gap between theoretical concepts and production-ready implementation.

TECHNICAL SKILLS

Programming Development	& Python (Core + Advanced), PHP, OOPs, File Handling, Exception Handling, REST API Basics, Automation Scripts
Data Structures Algorithms	& Arrays, Strings, Linked Lists, Stacks, Queues, Trees, BST, Heaps, Graphs, Sorting, Searching, Dynamic Programming
Databases	MySQL, PostgreSQL, SQL Queries, Joins, Subqueries, Schema Design, Normalization, Indexing, Transactions, ACID
Data Science & Big Data	NumPy, Pandas, Matplotlib, Seaborn, Data Cleaning, EDA, Big Data Concepts, Scikit-learn (Linear Regression, Classification)
Generative AI	Prompt Engineering, LLM-based Application Design, AI API Integration, Context Handling, NLP Basics
Tools & Platforms	Git, GitHub, Jupyter Notebook, VS Code

PROFESSIONAL EXPERIENCE

Full-Time AI Trainer — Ikigai School of AI

India | Present

- Deliver comprehensive, full-time training in **Python, AI, and Data Science** to batches of aspiring developers and data professionals.
- Design and execute **project-based curricula** covering Machine Learning pipelines, Generative AI fundamentals, and real-world automation.
- Mentor students through capstone projects, interview preparation, and placement readiness, resulting in improved hiring outcomes.
- Collaborate with curriculum leads to integrate **emerging AI tools and LLM APIs** into daily coursework.

PHP + AI Trainer — RCPL

India

- Conducted dual-track training in **PHP development** and **Artificial Intelligence**, enabling full-stack and AI literacy among trainees.
- Taught backend fundamentals including **PHP core programming, database connectivity, and RESTful API integration**.
- Introduced AI modules covering **Python for Data Science, ML basics, and Generative AI applications** to bridge traditional web development with modern AI workflows.
- Developed practical assignments and coding assessments to reinforce both web development and intelligent automation skills.

AI & Python Trainer — True Mind

India | 2 Years

- Delivered end-to-end training in **Python programming** from foundational syntax to advanced concepts including OOPs, file handling, and modular coding.
- Trained 100+ students in **NumPy, Pandas, Matplotlib, Seaborn**, and real-world data analysis workflows.
- Introduced **Machine Learning fundamentals**: model training, evaluation, feature engineering, and deployment basics.
- Integrated **Generative AI & LLM concepts** into learning modules for smart application development.
- Mentored students for technical interviews, placements, and final-year projects.

Big Data & Data Science Trainer — Hitbull Eye (Big Data Division)

India | 1 Year

- Delivered specialized training in **Big Data technologies and Data Science workflows**, covering large-scale data processing and analytics fundamentals.
- Taught **Data Structures & Algorithms** including Arrays, Trees, Graphs, and Dynamic Programming with a focus on scalable system design.
- Instructed on **DBMS concepts**: normalization, indexing, joins, transactions, and ACID properties for data-intensive applications.
- Conducted **Python for Data Science** sessions with hands-on practical assignments, structured lesson plans, and real-world case studies.
- Performed code reviews, doubt-solving sessions, and mock interview preparation for campus placement drives.

PROJECTS

AI-Powered Academic Learning Assistant

- Architected an **LLM-based tutoring assistant** to support learners in DSA, DBMS, and Python using context-aware question answering.
- **Outcome**: Improved student engagement and reduced repetitive doubt-resolution time by approximately 40%.

Smart Resume Analyzer (Generative AI)

- Developed an **AI-driven resume screening system** that analyzes resumes against job descriptions using NLP and LLMs.
- Generated ATS-friendly suggestions, identified skill gaps, and recommended keyword optimizations.
- **Outcome**: Helped students increase resume-match scores by an average of 35%.

ACHIEVEMENTS & PROBLEM SOLVING

- Solved **250+ problems** on LeetCode with strong command over time and space complexity optimization.
- Regularly practice interview-level coding patterns including sliding window, two pointers, recursion, and graph traversal.
- Consistently rated as a top-performing trainer across multiple institutions for student satisfaction and placement conversion.

EDUCATION

B.Tech — Computer Science Engineering

Gurukul Kangri University, Haridwar
